TAKE ONE TABLET. IF YOU ARE HURT BY A GENERIC DRUG BECAUSE IT IS INHERENTLY DANGEROUS WAIT FOR A CALL BACK FROM SCOTUS.

Orig: 6/23/11 – *Pliva v. Mensing*: generic makers do not have to update their warning labels, even when new side effects are discovered.

Follow up: 3/19/13 – *Mutual v. Bartlett*: Will justice be denied again?

WARNING: 80% of drugs prescribed are generic. Are you protected?

FDA Approval is no guarantee of drug safety – see BEXTRA and DARVO CET.

4.5 million Americans visit emergency rooms because of adverse prescription drug side effects each year. One in five hospital patients suffer injury or death from adverse drug reactions.

More than 37,000 people die from adverse drug reactions each year, at a cost to the economy of \$136 billion.
